Comment: Inspection Doc. #682500676 required operator to reclaim pit and well location. Pit remains open and well location has not achieved uniform vegetative cover; no reclamation work appears to have been conducted. Original corrective actions and corrective action dates remain in place.

Corrective Action: _____ Date **05/31/2016**

Establish vegetation with total perennial non-invasive plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture that matches the adjacent pastureland or a seed mixture requested by the landowner. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall begin immediately upon pit closure, but no later than 5/31/2016.

Inspection Doc. #682500676 required operator to submit a form 27. None have been filed. Original corrective action and corrective action date remains in place: Pit has not been closed in accordance to COGCC requirements. Doc. #200110143 required the pit to be sampled and a form 27 to be submitted to the COGCC for approval before closing the pit. No records have been found indicating that the pit was ever sampled, or that a form 27 was filed.

Corrective actions from Doc. 200110143 are still applicable; sample pit, report results compared to the Table 910-1 and submit a form 27 to NE Environmental Protection Specialist Rob Young (rob.young@state.co.us) for approval before closing pit. Pit shall be closed in accordance to 1000 series rules.
