Comment: There is a utility box which remains at the center of the location. There are areas at the location that appear to have compacted soils. There are areas which are establishing desirable vegetation well and other areas which have minimal desirable vegetation establishment. There are undesirable weeds throughout the location. See Attached Photos

Corrective Action:

Date **04/01/2017**

Remove the utility box. Evaluate the soils for compaction and de-compact where necessary.
Reseed areas of the location to facilitate desirable vegetation establishment.

Well Release on Active Location ☐Multi-Well Location ☐**COGCC Comments**

Comment	User	Date
Establish vegetation with total perennial non-invasive plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture that matches the adjacent pastureland or a seed mixture requested by the landowner. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	12/15/2016
The undesirable weed growth (Russian thistle, Kochia) should be controlled by mowing or other method to maintain the location and facilitate desirable vegetation establishment.	CostaR	12/15/2016
