Nature of complaint: Noise/Vibration/Odor

Field Inspector Actions:

On 12-2-2016, I was contacted by COGCC staff in reference to a complaint coming from the Ward Petroleum Sack location in Fort Lupton.

I attempted to contact the complainant at the number provided by complaint and at the residence but I was unable to make contact.

I performed a complete site inspection at locations. At the time of inspection, I found an ECD which did not appear to be running as it should be which could have been contributing to the noise the complaint described.

I contacted Ward petroleum do remediate the possible issue with the ECD.

At the time of inspection, I no violations of COGCC rules were observed as upset conditions were present at time of the inspection.
