Air Quality / Odor Additional Comments (The more details the better)	Very strong Industrial fumes, Kerosene, diesel. Like I'm trapped in a closed glass jar with 100 big rigs at a truck stop and the trucks are all running and the truckers are socializing around kerosene heaters to stay warm. There is also a strong haze this morning.
Detailed description of the issue or issues.	,There is a strong odor, every day! I realize there have been inspectors here to investigate but they must be coming when there is no odor causing activity because these nasty fumes are so obvious and we are a good 1/2 mile away. Are there air monitoring devices constantly measuring or is it just spot tests? This is a residential area and it's ridiculous that we can't be outside.
