Air Quality / Odor Additional Comments (The more details the better)	It's the worst in mornings and evenings. It's pretty much every morning and evening and starting to last all day. We've walked to Kenosha Farms to take the kids to play there hoping to get away from the smell and haven't been able to sometimes. This is not some anti fracking, not in my backyard complaint. This smell is affecting our quality of life. We don't want to go outside. It's a bit sickening.
Detailed description of the issue or issues.	,Strange chemical odor that permeates the neighborhood. Makes taking the kids out for walks or playing at the playground nearly unbearable. Picking up and taking child to school this morning was awful.
