INSTRUCTIONS

Each producer or operator of any oil or gas well completed after April 30, 1956, shall file with the Commission, as soon as practicable, a "Producer's Certificate of Clearance," Form 10, in triplicate, for each well producing oil or gas or both oil and gas. If requested by the Commission, a Certificate of Clearance shall be filed for any lease from which oil, gas or other hydrocarbon is being produced. A separate certificate shall be filed for each transporter authorized to transport oil, gas or other hydrocarbon from said producing lease or newly completed well.

After a certificate has been approved by the Colorado Oil and Gas Conservation Commission, one copy shall be forwarded to the transporter; one copy returned to the producer or operator; and one copy retained by the Colorado Oil and Gas Conservation Commission.

A new certificate shall be filed to cover each change in the producer or operator filing the certificate and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the production for one month, the producer or operator shall, in lieu of filing a new certificate, notify the Colorado Oil and Gas Conservation Commission, and the transporter authorized by certificate on file with said Commission, by letter of the estimated amount of oil and/or gas to be moved by the transporter temporarily moving oil and/or gas from the lease and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Colorado Oil and Gas Conservation Commission shall constitute an authorization to a Pipe Line or other carrier to transport oil or gas from the lease named therein and shall remain in full force and effect until,

- (A) There is a change in the producer or operator filing the certificate, or
- (B) The transporter is changed, or
- (C) The authorization is cancelled by the Colorado Oil and Gas Conservation Commission.

If any of the rules and regulations of the Colorado Oil and Gas Conservation Commission have not been complied with at the time this report is filed, explain fully under the heading: "REMARKS."

In cases where this certificate is filed to cover a change in the producer or operator or a change in the transporter designated to move oil or gas, show under "REMARKS" the previous producer or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing lease as designated by the Colorado Oil and Gas Conservation Commission.
