# Interim Reclamation and Stormwater Inspection

**Photo 1.** Photo taken from the northern interim area, facing West. Germination apparent throughout most of the interim area.

## Interim Reclamation and Stormwater Inspection

**Photo 2.** Photo taken from the northwest production area, facing West. Germination apparent throughout most of the interim area.

## Interim Reclamation and Stormwater Inspection

**Photo 3.** Photo taken from the northwest production area, facing South. Germination apparent throughout most of the interim area.

## Interim Reclamation and Stormwater Inspection

**Photo 4.** Photo taken from the southern production area, facing East. Germination apparent throughout most of the interim area. Germination lacks along portions of this interim area. May need additional reclamation activities to be performed to achieve Rule 1003 standards.

## Interim Reclamation and Stormwater Inspection

**Photo 5.** Photo taken from the southeast production area, facing East. Germination apparent throughout most of the interim area.

## Interim Reclamation and Stormwater Inspection

**Photo 6.** Photo taken from the northeast location, facing South. Germination apparent throughout most of the interim area. Germination lacks along portions of this interim area. May need additional reclamation activities to be performed to achieve Rule 1003 standards.

## Interim Reclamation and Stormwater Inspection

**Photo 7.** Photo taken from the southern location, facing East, towards the flare. Kochia weeds next to the flare pose a fire hazard.
