**General Comment:**

This is an inspection conducted via desktop for a historical location that was dry and abandoned in 1948. There are no electronic inspections or documents on record for this location. An aerial inspection shows no indication of the well or well pad. No apparent oil and gas related equipment or debris is observable. There are no known complaints or outstanding issues related to this location in the electronic record. Therefore, this inspection formally passes final reclamation for documentation purposes. COGCC no longer has a contact on record for this operator. No surety records are found for this company.
