Comment: PR

Corrective Action:

Date:

Complaint

Comment: Complaint #:200441080

Field Inspector Assigned: Jeff Rickard

Location #: 336263

Inspection Document #: 674103942

Nature of complaint: Noise

If Sound GPS Coordinates of Survey Location: NA

Inspection Observations:

OGCC inspector was on location on 2/14/17 in response to a complaint about noise from location. The noise was determined to be coming from the heater fire tube on the separator. Anadarko staff worked on the separator while OGCC inspector was on location. The wind speed was too high to run a noise survey. Anadarko staff was able "tune" the heater to make it quieter while OGCC inspector was on location. Anadarko staff requested complainant's information so their Stakeholder relations could reach out to the resident to continue to work with them to further alleviate the noise issue. Since Anadarko staff was able to "tune" the heater to reduce noise, OGCC inspector considers the complaint closed.
