**RE: COGCC Rule 306.e.: Meetings with Building Unit Owners within a Buffer Zone Setback
COGCC Rule 306.e.(5): Operator Certification
MLD 22-A Pad: NWNW Section 22, Township 4 North, Range 68 West
Weld County, Colorado**

Dear Mr. Lepore,

Extraction Oil & Gas, Inc. (Extraction) has filed the Form 2A Oil and Gas Location Assessment (OGLA) for the proposed oil and gas pad referenced above.

Pursuant to COGCC Rule 305.c., Extraction certifies that the required notifications to all Building Unit Owners within the Buffer Zone Setback were sent and was available for meeting and/or consultation. Extraction received one request for meeting and/or consultation from Duane Bentley. Duane's main concern is noise and sound. He was informed about the use of sound walls and Extraction's standard practices surrounding sound studies, forecasts and the implementation of engineered sound walls. Additionally, he was informed about the possibility of an oil pipeline in the future plus temporary water transfer lines to reduce the truck tanker traffic. After the consultation he had no further concerns. This letter serves as Operator Certification that Extraction has complied with COGCC Rule 306.e.

Extraction respectfully requests the COGCC approve the Form 2A for the MLD 22-A Pad. Many thanks for your consideration of this matter.

Respectfully,

A handwritten signature in blue ink, appearing to read "Jeff Annable", is written over a light blue circular stamp.

Jeff Annable
Regulatory Analyst
Agent for Extraction Oil & Gas, Inc.
