Response: CA COMPLETED

Date of Completion: 04/11/2017

Pad size has been interim reclaimed as per COGCC 1003 Series Rules. Current pad size represents the average

Operator Comment: workable area for Laramie operations. Pad size is approx 1.77 acres, see attached diagram. Area(s) are stabilized, vegetation is sufficient. Inspector does not elaborate as to the significance of "volunteer vegetation". Laramie believes vegetation is part of overall reclamation regardless of whether it is "volunteer" or not. Request for interim reclaim inspection was made in 2015, photographs submitted at that time reflected appropriate reclaim. Interim Reclaim is complete.
