<u>Complaint</u>			
Comment:	This is a follow up inspection in relation to complaint doc#200441307. Extraction has put up sound mitigation around equipment (see photos). Extraction has stated that the equipment and sound mitigation is temporary and will install permanent sound mitigation equipment if needed once necessary utilities are run to location. Weather conditions are too windy to run a follow up sound survey to confirm compliance and the forecast predicts contast winds through the weekend. OGCC inspector will return to location to run a follow up survey when wind conditions are within parameters to run a valid survey.
