COMMENTS:

Ursa has entered into an agreement with the landowner to refrain from reclaiming the location. The landowners wish to use the flat surface of the pad for storage of equipment, hay and other farming needs. Attached is the information required for a final variance request as part of the guidance document regarding reclamation variances and waivers. The agreement will not be amended to reflect discussions between operator and COGCC due to sensitivities. This variance is for the majority of the location. Ursa will maintain until 80% vegetation exists.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____
