Rick,

This morning PDC Energy discovered a reportable release inside secondary containment near the separator for our Sappington 22Q-301. The release appears to be from a dump valve failure on the separator. Immediately upon discovery the location was shut in, a vac truck was mobilized, and further cleanup efforts are currently underway. Release location details follow:

- Location: Sappington 22Q-301
- Facility ID: 441876
- Legal Location: SWSE 22 5N64W
- Lat/Long: 40.37993/-104.53255

Landowners will be notified before close of business today and a form 19 will follow by Monday. If you have any questions, please let me know.

Thanks,

Jason Thron, CSP, OHST

PDC Energy
