**General Comment:**

This is a final reclamation and stormwater inspection. Sundry Document #401074543 stated that Final Reclamation is complete and ready for inspection. Document #400459896 describes plugging operations on 5/8/2012. Any corrective actions from previous inspections that have not been addressed are still applicable.

Comment: Location ID 418511 with API 123-31937 appears to meet final reclamation regulations and standards. Unable to find evidence of oil and gas activities and/or disturbances. Vegetative growth appears reflective of reference areas. Portions of the main access road remain but appear to be present prior to oil and gas development. The access road was built north off the main access road and has been reclaimed per COGCC regulations and standards.
