On 4-242017, I was contacted by James Precup NE supervisor of the COGCC in reference to a noise and lighting complaint at the residence of the complainant Linda Luzania.831 Lakebrook Cout Windsor CO.

I contacted the complainant and she indicated she had been experiencing noise and bright lights coming from the location north of her home, an annoying sound coming from the location which were located approx. 1/4 mile away to the NE of her home. The complainant stated the noise occurred during the nighttime at different times.

I performed a site inspection at the location indicated by the complainant. See inspection doc# 674200066 for results of site inspections. At the time of the inspection no drilling was occurring at the site. The site did not have any type of operation on location as it was in between drilling and frac. Sound walls were still in place at the time of inspection.

At the time of inspection, no violations of COGCC rules were observed.
