COMMENTS

This form applies to Rio Lobo #1-30 well (05-121-11065). Requesting an exception to groundwater sampling requirements per Statewide Rule 609.c.

There is only one (1) water source within one-half (1/2) mile of the proposed oil and gas well; however, the well is considered unsuitable to sample. An attempt was made on July 11, 2016 to collect a sample; however, due to a broken housing on the windmill, the pump did not operate despite suitable wind conditions.

An additional visual inspection was conducted in April 2017 to determine if the well was operable, but there was no evidence of repair. There was sufficient wind at the time, but the windmill did not operate. See Sundry Form 4, Document Number 401076993 for reference to the July 2016 groundwater sampling attempt.

There are four (4) water source exceptions requested per Rule 609.c.

The COGCC GIS Online Interactive Map and field observations were utilized to research applicable groundwater wells.
