Comment _____

Topsoil side slopes appear steep and may be difficult to stabilize. The Operator shall consider both short and long-term stabilization BMPs when stabilizing topsoil stockpiles.

Per Rule 1002, topsoil shall be stabilized and protected from degradation due to wind and water erosion. Per Rule 1002, BMPs to prevent weed establishment and to maintain soil microbial activity shall be implemented.

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Berms	Pass					
Ditches	Pass					
Sediment Traps	Pass					
Tracking Pad	Fail					

Comment: At the time of this inspection on May 11, 2017, stormwater and sediment control BMPs have been installed around the perimeter of the location and appears to be in proper functioning condition. However, COGCC staff did not observe a tracking pad on May 11, 2017. COGCC staff contacted and communicated to the Operator that a tracking pad needs to be installed. The Operator communicated to COGCC staff that tracking pad material would be installed ASAP and that tracking pad material was supposed to be installed that day. The Operator said street sweeping operations were being conducted which was confirmed during the inspection. BMPs should remain in place and in proper functioning condition until the location reaches final reclamation.

Date: _____

Pits: ☐ NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
Please refer to the attached inspection photos in Document #682402106.	binschusc	05/12/2017
It should be noted there appears to be an active Swainson's hawk nest approximately 500 feet north of the location. COGCC staff contacted and communicated to the Operator this observation.	binschusc	05/12/2017
