Comment

Vegetation on areas of Cut & Fill Slopes is struggling though Slopes appear stable. Top soil replaced Tab (above) was not checked as it is not evident that Fill slopes & other Interim Rec areas did have Top soil applied, which maybe contributing to slow progress of Vegetation.

Comment: [It does appear that erosion control/ reseeding has been implemented as called for in CA of 2012 Inspection, though vegetation is struggling to establish. Slopes do appear stable. Ditch at base of Cut slope that catches Seep Water should be monitored for maintenance; refer to Photos attached.](#)
