Inspection Document #: 674200074

Nature of complaint: Odor

Field Inspector Actions:

On 5-18-2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received by the COGCC about odor occurring in the Erie area south of the Crestone Peak Resources, Waste Connection drilling pad.

On 5-18-2017, I performed a complete site inspection of the Waste Connection location and the neighborhoods south and southeast of the drilling pad. At the time of inspection, I observed Ensign drilling rig 153 on the location performing drilling operation for Crestone Peak Resources. I reviewed location records, which did not show any abnormal drilling conditions at the time of the complaints.

As part of my inspection process I drove thru the neighborhoods indicated on the complaints. I did not detect any odors in the neighborhood at the time of my inspection

All information reviewed and site inspection information were submitted to the complaint specialist for further review.

No violations of COGCC rules were observed at the time of the inspection.
