COGCC Received your Complaint

Column	Value
Date of Complaint	5/23/2017
Your Name	Dominic Maes
Your Address	1390 Hickory Dr
Your City and State	Erie, CO
Your Zip Code	80516
Your Phone (Used only to follow up)	520-975-7676
Location of Concern	Waste Connections site in Erie
Do you know who the oil and gas company is? If so, please specify and if you contacted them already please indicate that and who you talked with.	Crestone Peak Spoke to Jason Oates, and emailed Bridget (don't recall her last name, PR person). Jason agreed to meet with me but is not available until the first week of June. He emailed me the following information: "Based on the basis of your email, the most credible information I can share related to the air quality at the Waste Connection site are the results of the CDPHE's testing at the Woolley Becky-Sosa site in February. Crestone is using the same drilling fluids at the Waste Connection, thus it is an accurate and logical comparison. Of note is the conclusion that, "All samples were approximately the same or below average air concentrations over the same month from a background site in an oil and gas region along the Front Range." Therefore, any degradation in air quality near the Waste Connection well pad is not attributable to Crestone's activity." While this is good information it does nothing to alleviate my concern of an odor nuisance. I cannot have enjoyment of my backyard due to the transient nature of these odors. Please inform me of the outcome of Margaret's meeting with Crestone set to occur on the afternoon of May 23rd. I can be reached at 520-975-7676 . Thank you

Well or facility name and number (If known).	Waste Connections
Have you contacted any other agencies or local governments related to this issue or issues? If so, please provide details.	I have spoken to Margaret Ash the field supervisor at COGCC, and she informed me that this afternoon (May 23rd) she is meeting with Crestone to determine what is going on and determine a path forward. I would like to be notified as to the outcome of this meeting. I can be reached at 520-975-7676 .
What is your preferred method for the COGCC to communicate with you throughout the investigation? (Select all that apply)	Phone
