General Comment:

COGCC Integrity Inspection performed on June 1st, 2017 in response to initial form 19 spill report Doc #401293024 received on 05/26/2017 that outlines: On May 23, 2017, historical impacts were discovered during P&A activities at the Berig UPRR 42-35 #1 production facility. Site infrastructure has been removed and will not be replaced. The details of observations made during this field inspection are available in the equipment and comment sections of this report. Photo's uploaded and can be accessed via link(s) at the end of this report.
