[Nature of complaint: Noise](#)

[Field Inspector Actions:](#)

[On 6-19-2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received by the COGCC about noise occurring in the Erie are of CR 10.5 and WCR 3.](#)

[On 6-19-2017, I performed a complete site inspection of the location located approx. 1/4 mile north of 3 WCR. At the time of inspection, I observed a frac pad where Crestone Peak was conducting remote frac operations on the Woolley Becky Sosa location and the Crestone Peak Morgan Hills locations. I reviewed location records, which did not show any abnormal fracking conditions at the time of the complaints. I also reviewed Environmental Noise Control Inc. continuous sound study information which also did not show any exceedance of COGCC rules at the times of the complaints.](#)

[Previous sound studies taken at location approx. 350' to the south and to the west of the noise source per COGCC guidance did not show any violation of COGCC rules. Due to high winds in and inclement weather in the area at the time of the inspection no sound studies were performed. .](#)

[All information reviewed and site inspection information were submitted to the complaint specialist for further review.](#)

[No violations of COGCC rules were observed at the time of the inspection.](#)
