ComplaintComment: Complaint Received June 19 & 20, 2017Field Inspector Assigned: Jason E. GomezComplaint Received:Date: 6-19 & 20--2017 TimeContacted by Complaint Specialist per Complaint Response formsDate: 6-19 & 20 -2017Well Number#: Location #: 434375Inspection Document #: 674200118Nature of complaint: OdorField Inspector Actions:

On 6/20/2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received by the COGCC about odor occurring in the Erie area south of the Crestone Peak Resources, Waste Connection drilling pad.

On 6-20-2017, I performed a complete site inspection of the Waste Connection location and the neighborhoods south and southeast of the drilling pad. At the time of inspection, I observed Ensign drilling rig 153 on the location performing drilling operation for Crestone Peak Resources. I assisted CDPHE in gathering drilling mud samples, drill cutting samples and air samples on the drilling rig during the inspection. I reviewed location records, which did not show any abnormal drilling conditions at the time of the complaints. As part of my inspection I performed a sweep of the area of the complaints in an attempt to locate any odors off location. At no time during this inspection did I detect any odors off location.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.

No violations of COGCC rules were observed at the time of the inspection.
