Location Construction

Location ID: 429619 CDP: _____

Comment: There is a recently constructed area southwest and adjacent to the Freeman 3-24 location. There is a new access road that enters the west side of the Freeman 3-24 location with additional pad disturbance contiguous to the location. The total area of recent disturbance is 1.41 acres. The total area of the location excluding recent additional disturbance area exceeds 2A.

Corrective Action: _____ **Date:** _____**Form 2A COAs:**

Comment: A form 42 hour notice was submitted on 6/8/2017 as required by the corrective action of the previous inspection. The form 42 indicates a start date of 6/1/2017 of new construction. The form 42 should have been submitted 48 hours prior to construction as stated in the Form 2A Conditions of Approval.

Corrective Action: _____ **Date:** _____**Wildlife BMPs:****Comment:** _____Corrective Action: _____ **Date:** _____**Stormwater:**

Erosion BMPs	Present	Other BMPs	Present
	No		No`

Comments: Erosion BMPs: There are no Stormwater Control BMP's in place at the recently constructed area southwest of the location. Stormwater controls must be in place prior to construction. No stormwater controls were installed since the previous inspection.

Other BMPs: Install required BMPs per Rule 1002.f.

<p>Comment: There are no stormwater issues identified at the Freeman 3-24 location. There are stormwater erosion issues at the recently constructed area southwest and adjacent to the location and there are no stormwater controls in place. See Location Construction section of this report for stormwater corrective actions at the recently constructed area. The segregated soil stockpiles at the recently constructed area were in the process of being replaced and contoured. The disturbed soils are susceptible to wind and stormwater erosion. The soils will need to be stabilized with a certified weed free mulch or equivalent method until vegetation has re-established. See below corrective action and date.</p> <p>Corrective Action: Install required BMPs per Rule 1002.f. Date: 06/27/2017</p>						
Pits: <input type="checkbox"/> NO SURFACE INDICATION OF PIT						

COGCC Comments		
Comment	User	Date
The soils at the disturbed area have become heavily compacted. Soil decompaction must occur by cross-ripping to a depth of 18 inches.	CostaR	06/13/2017
The disturbed soils must be seeded to re-establish vegetation. Seeding must occur at the most appropriate season but no later than October 15, 2017.	CostaR	06/13/2017
