Joyce,

Please provide additional information as to why the water well with receipt number 9042678 is inoperable. The additional information could be from the land owner or your consultant.

Thanks,

Arthur

Good morning Arthur,

I'm quoting below information that I received from our consultant. Let me know if you need further information.

I wanted to let you know that I contacted Mr. Boyd this morning to set up the baseline sampling prior to drilling the Mary Jane 13-5 and 11-5 wells. We had approved access to the well, but when speaking to him further about it, he informed me that there is no operating pump in the well at this time. Since there is no pump, we are not required to collect a water sample from the well per Rule 609.b(5). A Sundry Notice Form 4 can be submitted stating that the well (Receipt #9042678) is inoperable.

Hope you enjoyed the 4th of July Holiday!

Joyce Henkin
