

Photo 1: View of the former well pad from the southeastern edge facing center.

Photo 2: View of the eastern portion of the former well pad from the southeastern edge facing northward.

Photo 3: View of revegetation on the well pad from the northern edge facing southward. Vegetation on the well pad appears to be more sparse than surrounding wheat crop.

Photo 4: View from the beginning of the access road facing southward toward the well pad. Vegetation in project area is more sparse than surrounding vegetation.
