ATTN: Director Matt Lepore  
1120 Lincoln Street, Suite 801  
Denver, Colorado 80203

RE: Kinder Morgan CO2 Company, L.P.  
Rule 523.e. Voluntary Self Disclosure – Fifth Quarterly Report

Dear Director Lepore:

Kinder Morgan CO2 Company, L.P. ("Kinder Morgan") (Operator No. 46685) hereby provides the Colorado Oil and Gas Conservation Commission ("COGCC" or "Commission") with this fifth quarterly status report to its Rule 523.e. voluntary self-disclosure made on February 17, 2016. This fifth quarterly status report follows the first quarterly status report of June 30, 2016, the second quarterly status report of September 30, 2016, the third quarterly status report of December 20, 2016, and the fourth quarterly status report of March 23, 2017. Further, this fifth report provides an update regarding the status of certain drilling pits located in Montezuma and Dolores Counties, Colorado, which either required soil sampling, were closed pursuant to BLM requirements, or were drilled without a pit and closed with a Form 27. The attached table labeled "Exhibit A – June 2017 Status Table" provides a summary of the status of the subject pits as of this fifth quarterly status report.

As previously reported, the COGCC has approved all Form 27s for the 25 pits requiring a Site Investigation and Remediation Workplan. As of the date of the fourth status report, Kinder Morgan had completed the soil samples at all 25 fee locations and received approved Supplemental Form 27As confirming No Further Action and pit closure on a total of 6 sites.

Kinder Morgan continues to work closely with the COGCC Staff regarding any required remediation and monitoring. In addition, Kinder Morgan has contacted all of the landowners at sites where pit liner material is present to request waivers to leave the liners in place and/or discuss plans for additional monitoring and/or remediation, if required. As of the date of this status report, Kinder Morgan has received signed waiver agreements from landowners consenting to leaving the pit liner in place for 17 of the remaining 19 pit locations, and Kinder Morgan is currently preparing a variance request for the COGCC upon receipt of waivers from all consenting landowners.

Kinder Morgan received approval for another five (5) submitted Supplemental Forms 27A which include: the installation of monitoring wells at one (1) site, application of surface soil amendments at one (1) site, and in-situ remediation plans for three (3) sites. Kinder Morgan has installed the monitoring wells at the one (1) site and is currently waiting on laboratory analytical data. The four (4) sites with the approved in-situ remediation plans and the surface soil amendment application site are currently being scheduled for implementation. Supplemental Form 27s requesting approval to apply surface treatments for approximately eight (8) additional sites will be submitted. Supplemental Form 27 requesting No Further Action were submitted for COGCC approval for the remaining five (5) sites contingent upon approval of the variance to leave the liner in place when submitted. These five (5) sites were subsequently returned to draft status pending the approval of the variance.

Kinder Morgan continues to work diligently to close all of the remaining pits subject to its voluntary self-disclosure and appreciates the COGCC Staff's feedback and continued discussion. Kinder Morgan will submit its sixth quarterly report on or before September 30, 2017, and will supplement this report with additional information if necessary. If at any time you or the COGCC Staff has questions or would like additional detail on any item, please let me know by contacting me at 713-369-9113 or [ken\\_havens@kindermorgan.com](mailto:ken_havens@kindermorgan.com).

Sincerely,

A handwritten signature in blue ink, reading "Kenneth H. Havens Jr.", written over a horizontal line.

### LEGEND

- \* signifies wells that were part of the 2011 final settlement between KM and COGCC
- Category 1 signifies wells for which testing and landowner approval did not take place per the COAs or no pit permit obtained
- Category 2 signifies wells located on BLM land where KM completed remediation per BLM requirements
- Category 3 signifies wells drilled with closed loop
- Category 4 Kinder Morgan has reviewed all wells previously in category 4 and moved them to category 1 or 2 if appropriate
