1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment This is the second corrective action inspection for weeds. Project area is infested with thousands of musk and Canada thistles.

Corrective Action Control weeds by July 31, 2017. As musk thistles are flowering, they should be cut and bagged, and properly disposed of to prevent seed dispersal. Additionally, submit a weed control plan by August 31, 2017. Weed plan should provide a detailed description of how and when weeds will be controlled and monitored. The plan also needs to describe efforts to prevent weeds from spreading offsite, and when/how the weed-treated areas will be revegetated.

Date 08/31/2017

<b>Storm Water:</b>						
Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
Comment:	Access road is graded and rock/soil mix is placed in eroding areas. This needs to be monitored as it may be useful in maintaining the road surface but could still potentially cause future erosion and sediment deposition, especially in roadside drainages with exposed soil and no sediment controls.					Date: _____
Corrective Action:						
<b>Pits:</b> <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT
