 VEGETATIVE COVER \_\_\_\_\_

1003 f. Weeds Noxious weeds? F

Comment Overall, interim reclamation is satisfactory. There are noxious weeds (Canada thistle) growing in areas of the location and along the access road which will need to be controlled soon to prevent seed dispersal.

Corrective Action Comply with Rule 1003 f. and perform noxious weed control.

Well Release on Active Location Multi-Well Location **COGCC Comments**

Comment	User	Date
<p>Noxious weeds: Canada thistle is designated to be a list B noxious weed, which should be controlled to stop the spread of these species off of the oil and gas location. Weed control efforts should be performed prior to the weeds developing and dispersing seed. Ongoing weed control efforts should be performed to adequately control noxious weed growth.</p>	CostaR	07/20/2017
