Date: 07/20/2017

Response: CA COMPLETED

Date of Completion: 07/20/2017

Operator Comment: BP Compliance Specialist Sabre Beebe spoke with COGCC EPS on 7/19/2017 regarding the stained soils identified during inspection. Mr. Hughes and Ms. Beebe agreed on the plan of shoveling up all stained soils, transporting them to the BP soil box at the Operations Center where it will be remediated at IEI. It was further agreed that during this time the equipment would be inspected for active leaks and if leaks were found BP would have equipment repaired.

On 7/20/17 BP Contract personnel was dispatched to location where they checked equipment for active leaks and did not find equipment leaking. The contract crew then shoveled up all stained soils around equipment and bagged them for transport to soil box at Durango OC. Photos of before and after clean up are attached for your review. There are no manifest associated with this clean up as the amounts are below the reportable limits and the soils will be placed into the BP soil box for remediation at IEI in Farmington NM. Please Contact Sabre Beebe with BP with any further questions.

COGCC Decision: _____

COGCC
Representative:

OPERATOR COMMENT AND SUBMITTAL

Comment: As of 7/20/2017 stained soils have been shoveled up, transported off location to soil box closing this CA. See attached documentation.
