Final Reclamation/ Abandoned Location:

Date Final Reclamation Started: _____ Date Final Reclamation Completed: _____

Final Land Use: IRRIGATED _____

Reminder: _____

Comment: Project area is surrounded by hay field that was recently cut. Hay production within well pad and access road areas is significantly less than hay production within the surrounding area. This should be carefully monitored as it appears that soil decompaction and/or additional soil amendments may be needed to achieve final reclamation standards. A future vegetation assessment will be conducted.
