**Inspected Facilities:**

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
442545	LAND APPLICATION SITE	AC			-	Hester Farms	EI

**General Comment:**

**Environmental****Waste Management:**

Type	Management	Condition	GPS (Lat)	(Long)
Drill Cuttings	Land Application	Adequate		
Comment	It appears all E&P drilling waste has been incorporated. No stockpiles or standing liquids were observed. Post application soil sample results indicate that the soil onsite complies with the Table 910-1 Concentration Levels or are within background concentrations. Therefore, it appears that no further action is necessary at this time and the COGCC approves the land application site closure request. However, should future conditions at the site indicate contaminant concentrations in soils exceeding COGCC standards or if ground water is found to be impacted, then further investigation and/or remediation activities may be required.			
Corrective Action				Date: <input type="text"/>

**Spill/Remediation:**
