CORRECTIVE ACTIONS:

1 CA# 84186

Corrective Action: Collaborate with the surface owner and perform reclamation in accordance to COGCC 1000 series rules on the well, access road and battery locations; Remove gravel from battery and access road, perform compaction alleviation and remove cattle guard. Re-contour/Re-grade access road. Manage weeds. Ensure temporary stabilization controls are in place until more permanent vegetative stabilization has established. Reclamation activities shall be completed no later than 7/31/2017. See COGCC comments for additional corrective actions and dates regarding revegetation.

Date: 07/31/2017

Response: CA COMPLETED

Date of Completion: 07/31/2017

Operator Comment: PDC Energy is collaborating with the surface owner to obtain a variance that will be submitted shortly.

COGCC Decision: **Not Approved**

COGCC Representative: Inspector acknowledges PDC's intent to pursue a variance. However, unable to approve resolution as the response of "Corrective Action Complete" indicates that the corrective actions from the inspection report have been addressed. Based on the operator's comments within this resolution this does not appear to be the case.

Please note that until a variance request has been submitted, corrective action(s) and date(s) remain applicable. COGCC can not assume operator will submit a variance request. Until an official request has been submitted, inspector will continue with business as usual including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if request is denied.

OPERATOR COMMENT AND SUBMITTAL

Comment: PDC Energy is collaborating with the surface owner to obtain a variance that will be submitted shortly.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
