General Comment:
 Date of Inspection: 7-27-17
 Type of Inspection: Wildlife Consultation, Containment, Stormwater
 Location Name: Herrera B-N33N8W /20NENE Pad; IGS 111 well
 Location ID #: 311896
 Form 2A# 401314079
 API #: 05-067-09139
 Construction stormwater BMPs for well pad (diversion trenches, straw wattles, and other spill stormwater control equipment) and access road (borrow ditch for sediment control) are in-place and these stormwater controls indicate no evidence of offsite migration of fluids or sediment; however, based on the recent onsite and inspection (7-27-17) conducted by COGCC, additional stormwater controls will be required for the existing well pad area and the tank containment area of this oil and gas location; location is in dry land farming; no evidence of leaks or spills at wellhead; tank has secondary containment - no evidence of leaks or spills; signage for tank and wellhead are adequate; CPW had no recommendations.
