**General Comment:**

Date of Inspection: 5-10-17  
Type of Inspection: Interim Reclamation, Containment, Stormwater  
Location Name: Carmelita Gallegos A 1 Pad; Carmelita Gallegos A 1 and A 3 wells  
Location ID #: 320858  
Form 2A#: 401156218  
API #: 05-007-06325  
Permanent stormwater and containment BMPs for this well pad expansion and the original well pad (perimeter berm, diversion trenches, silt fences, straw wattles, rock check dams, and other spill stormwater control equipment) and access road (borrow ditch with rock check dams for sediment control) are in-place and these stormwater controls indicate no offsite migration of fluids or sediment; cut and fill slopes of the original well pad have been partially to mostly re-vegetated; a 12" to 15" earthen berm placed around well pad perimeter for containment of temporary drilling tanks and temporary frac tanks; straw and straw wattles placed beyond berms for surface soil erosion control; location is within a designated setback location; no evidence of fugitive dust or odors reaching nearby residence during drilling operations.
