**General Comment:**

inspection initiated by CDPHE report 2017-0405 regarding possible spill/release of E&P waste into surface water ponded to south of battery.

Battery is still under construction and not in operation at this time. Battery is located to south of wells it will serve and was located north of WCR 20.5 and north of ponded surface water. No spills or releases of E&P wastes from this battery were noted as battery not completed and not in service. Horizontal wells to north are drilled but not completed.
