On August 1, 2017 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the BP REM #10004 project area (Facility ID #448730). For the most recent field inspection report for this facility, please refer to document #674901407. Forest Service representatives Walt Brown and Lou Sovocool were present during this inspection. BP representatives Andy Hawk and Steve Moskal were also present during this site visit. The area along Saul's Creek that was protected with truck mats during the initial clean-up phase was inspected during this site visit. The link to a photograph of this area is attached to this inspection report. The area near the release point has been reseeded with Forest Service approved seed mix. Vegetation monitoring will reoccur in the fall of 2017 and spring of 2018, along with follow up soil sampling. Analytical results will be provided by the operator via a supplemental Form 27.	hughesj	08/09/2017
