# 7

Comment:

Inspection Doc. #682502037 required operator to remove pipe risers at the tank battery location. Seven (7) risers remain. Of the seven, operator has sprayed "In Use" on five (5) of the larger risers. These risers will now be addressed in a separate inspection under well 123-08177, as this is an active IJ well related to this facility, and for tracking purposes regarding UIC

Comment: Inspection Document #682502037 required operator to various pipe and equipment debris found at the PAD well location. Pipe debris still remains at PAD well. Original CA and CA date remains in place.

Corrective Action: \_\_\_\_\_ Date **06/30/2017**

Remove all debris and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be complete no later than 6/30/2017
