Comment: Inspection doc. #682502354 required operator to perform reclamation on well, access road and battery, including by not limited to: Removing gravel from battery and access road, perform compaction alleviation and remove cattle guard. Re-contour/Re-grade access road and ensure temporary stabilization controls are in place until more permanent vegetative stabilization has established by 7/31/2017. Unable to find evidence that work has been conducted. Original CA and CA date remains in place.

Corrective Action:	Perform reclamation in accordance to COGCC 1000 series rules on the well, access road and battery locations; Remove gravel from battery and access road, perform compaction alleviation and remove cattle guard. Re-contour/Re-grade access road. Ensure temporary stabilization controls are in place until more permanent vegetative stabilization has established. Reclamation activities shall be completed no later than 7/31/2017.	Date	07/31/2017

		Multi-Well Location	<input type="checkbox"/>

COGCC Comments

Comment	User	Date
Inspection doc. #682502354 required operator to "Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. To allow time to for a fall seeding, revegetation activities shall be complete no later than 11/15/2017". This CA is still applicable.	trujilloam	08/18/2017
