Comment: The vegetation at the location was mowed since the previous inspection and noxious weed control was performed. The fence and gate around the location are repaired. The pipe riser and meter have been disassembled however the abandoned gathering riser, pipe fence, and gravel remains. The access road remains and appears compacted. The east side of the location has not established desirable vegetation and contains predominately undesirable weeds. See Attached Photos

Corrective Action:	Comply with Rule 1004. Remove the pipe riser, pipe fence, and gravel. Reclam the area of the pipe riser and the access road. Decompact soils by cross ripping to a depth of 18 inches. Reseed disturbed areas and the east side of the location to facilitate desirable vegetation establishment.	Date	10/30/2017
