Environmental**Spill/Remediation:**

Comment: [NFA request for Remediation Project #10065 \(document #401261956\)](#) was approved under the condition that groundwater sampling would continue on a quarterly basis for one year. COGCC records indicate that no quarterly sampling reports have been received from the operator. This inspection report confirms that monitoring well #TH-16 had been abandoned, mitigating the possibility of required quarterly monitoring.

Corrective Action: [Contact COGCC EPS Chris Canfield to discuss ongoing remediation requirements.](#)
