Fischer, Alex		alex.fischer@state.co.us	

**General Comment:**

Environmental inspection of P&A well. No infrastructure of any kind remaining on pad. No indications of petroleum spills or releases such as staining or odors. Pad remains level with no evidence of re-contouring, re-grading, or revegetation. Some natural revegetation. Stock grazing on pad. Surrounding upslope vegetation is primarily Gambrel oak with rabbitbrush, sage, and grass in downslope valley.
