**General Comment:**

This is an environmental inspection to document status of spill of produced water (COGCC Spill #451918). Operator has submitted Form 19 spill report.

Spill has been stopped and no live water from spill was observed during inspection. Spill flowed into dry drainage east of spill location. Drainage is considered Waters of the State. Drainage was dry at the time of inspection (see attached photos).

Due the spill impacting Waters of the State operator should obtain soil samples from impacted drainage.
