**RE: Re-plug and re-abandonment of the Kenneth Thayer #1 oil & gas well  
SWSW of Section 30 – T6N – R67W**

Dear Gary:

Great Western Operating Company, LLC, is required, under State laws and COGCC rules, to re-enter, re-plug, and re-abandon the above-referenced well prior to our current Raindance obligations. As a part of this process, Great Western must have the surface owner's written permission to enter the property for the above-stated purpose.

Please indicate below your consent for Great Western to access the property and re-enter, re-plug, and re-abandon the Kenneth Thayer #1 well.

Please let me know if you have any questions.

Thanks,

*Eric Creed*
