General Comment:

COGCC environmental inspection of PA well and abandoned tank battery location. Well was reported to have been plugged and abandoned on 10/22/2016, per Form 6 Subsequent Report (doc #401136698). In the Subsequent Plugging report, operator indicates that flowline abandonment is responsibility of surface owner.

Wellhead, tank battery, and surface equipment had been removed prior to field inspection date, but location does not meet COGCC Final Surface Reclamation requirements. This inspection report is being sent to the area Reclamation Specialist.
