 TRANSECT RESULTS OF REFERENCE AREA% \_\_\_\_\_  
 TOTAL % OF DESIRABLE VEGETATION COVER \_\_\_\_\_  
 VEGETATIVE COVER \_\_\_\_\_

Comment:

	<p style="color: blue;">Location does not meet Reclamation Regulations. There is an Area of subsidence at Well head area around cellar/culvert that was not removed after plugging of Well. Vegetation cover and composition is insufficient in one area, approximately 150 X 150 Ft which has not revegetated; from Historical aerial imagery this appears to have been the Land Farming site. Noxious Weed, Canada thistle is established in areas that have revegetated. Access Road has not been reclaimed. Refer to attached Photo log for GPS of Subsidence &amp; detail of Site Conditions.</p>	
Corrective Action:	<p>Identify facility exposed by Subsidence; removing / cutting off as dictated by Rules; reseeding area disturbed by activities. Control Noxious Weeds by 9/30/2017. Reclaim Access Road and Location areas bare of vegetation; Seeding/Reseeding as needed; Reclamation activities to be complete by 11/1/2017.</p>	Date <b>09/30/2017</b>
<p>Overall Final Reclamation <span style="color: red; font-weight: bold;">Fail</span>      Well Release on Active Location <input type="checkbox"/>      Multi-Well Location <input type="checkbox"/></p>
