Comment:

	COGCC Staff, Chris Binschus, and PDC Energy, Phillip Porter, had discussions during June 2017 regarding the failure to complete reclamation activities by May 1, 2017 per the previous corrective action inspection. Based on conversations with the Operator and property management staff, the Operator was the in process of conducting reclamation activities but was instructed by property management staff to stop work. PDC has since communicated with the property management staff and will coordinate to complete reclamation activities by Fall 2017. A new corrective action date is being issued. See COGCC Comments section for additional compliance information.	
Corrective Action:	Comply with 1004 Rules. All reclamation activities shall be complete no later than October 31, 2017.	Date 10/31/2017

Date: _____		
Pits: <input type="checkbox"/> NO SURFACE INDICATION OF PIT		

COGCC Comments		
Comment	User	Date
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of reference area levels. Use a seed mixture requested by the surface owner or a seed mixture provided by the local county Natural Resources Conservation Service. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed pursuant to Rule 1004 standards.	binschusc	09/25/2017
