COMMENTS:

The Rita 33 Offsite pit has corrective actions assigned to it, closure of pit per denied 502.b variance request Doc number 401234511. At this time Pioneer is requesting an extension for the closure of the pit, as the location currently has restrictions for hunting and we are not able to conduct any work at this time. Restrictions will lift on 12/30/2017 at which time winter weather conditions and frost levels may impact the closure process. At this time the timeline for closure is 90 days from denial of variance with full reclamation completed after 180 days, Pioneer is requesting to start reclamation of the pit on or after April 16th to allow for down time on account of inclement weather conditions and Hunting restrictions. If able Pioneer will start the closure process prior to April 16th weather permitting.

H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____
