Colorado Oil & Gas Conservation Commission

ATTN: Director Matt Lepore
1120 Lincoln Street, Suite 801
Denver, Colorado 80203

RE: Kinder Morgan CO2 Company, L.P.
Rule 523.e. Voluntary Self Disclosure – Sixth Quarterly Report

Dear Director Lepore:

Kinder Morgan CO2 Company, L.P. ("Kinder Morgan") (Operator No. 46685) hereby provides the Colorado Oil and Gas Conservation Commission ("COGCC" or "Commission") with this sixth quarterly status report to its Rule 523.e. voluntary self-disclosure made on February 17, 2016. This sixth quarterly status report follows the first quarterly status report of June 30, 2016, the second quarterly status report of September 30, 2016, the third quarterly status report of December 20, 2016, the fourth quarterly status report of March 23, 2017, and the fifth quarterly report of June 23, 2017. Further, this sixth report provides an update regarding the status of certain drilling pits located in Montezuma and Dolores Counties, Colorado, which either required soil sampling, were closed pursuant to BLM requirements, or were drilled without a pit and closed with a Form 27. The attached tables labeled "Exhibit A – September 2017 Status Table" provides a summary of the status of the subject pits as of this sixth quarterly status report and "Exhibit B – DC-5 Groundwater Sampling Results" provides a summary of groundwater sampling results for the groundwater monitoring wells located at DC-5.

As previously reported, the COGCC has approved all Form 27s for the 25 pits requiring a Site Investigation and Remediation Work plan. As of the date of the sixth status report, Kinder Morgan had completed the soil samples at all 25 fee locations and received approved Supplemental Form 27As confirming No Further Action and pit closure on a total of 6 sites, the DC-11, HA-4, YA-6, YA-7, YG-1 and the YG-2, as noted on Exhibit A.

Kinder Morgan continues to work closely with the COGCC Staff regarding any required remediation and monitoring. In addition, Kinder Morgan has contacted all of the landowners at sites where pit liner material is present to request waivers to leave the liners in place and/or discuss plans for additional monitoring and/or remediation, if required. Liner was located at 19 sites. As of the date of this status report, Kinder Morgan has received signed waiver agreements from landowners consenting to leaving the pit liner in place for 17 of the remaining

19 pit locations, and Kinder Morgan is currently preparing a variance request for the COGCC upon receipt of waivers from all consenting landowners. The liner was removed at one (1) of the 19 locations, DC-5, as part of the remediation work completed at that site in August and September 2017 that is discussed below.

Kinder Morgan has submitted a Supplemental Form 27A for each of the remaining 19 pit locations where closure has not yet been approved. Five (5) of the Forms 27A have been approved for various remediation activity (the DC-5, DC-2, GP-14, YE-7, and the GP-13, as noted on Exhibit A) and another eight (8) have been submitted and are in process (the DC-8, GP-9, GP-11, GP-16, GP-19, MC-8, YE-6 and the YF-3, as noted on Exhibit A). Supplemental Form 27s requesting No Further Action have been submitted to COGCC for six (6) sites (the HB-5, GP-12, GP-15, GP-17, YA-4 and the YA-5, as noted on Exhibit A), contingent upon approval of a variance request from Kinder Morgan that would allow pit liners to be left in place.

Kinder Morgan has completed excavation and disposal of drilling waste and installed six (6) groundwater monitoring wells at one (1) site, the DC-5, and the groundwater sampling data is included with this sixth status report as Exhibit B. A full report of the remediation activities conducted at the DC-5 location will be submitted to the COGCC via Form 27A in the fourth quarter of 2017. Implementation of the approved in-situ remediation plans for three (3) locations (the GP-13, GP-14 and the YE-7, as noted on Exhibit A) is scheduled to begin October 19, 2017.

Kinder Morgan continues to work diligently to close all of the remaining pits subject to its voluntary self-disclosure and appreciates the COGCC Staff's feedback and continued discussion. Kinder Morgan will submit its seventh quarterly report on or before December 29, 2017, and will supplement this report with additional information if necessary. If at any time you or the COGCC Staff has questions or would like additional detail on any item, please let me know by contacting me at 713-369-9113 or ken_havens@kindermorgan.com.

Sincerely,

Kenneth H. Havens Jr.
Vice President of Source and Transportation
